## SAFETY INSTRUCTIONS (1)

- In the paddocks proceed at walking pace and in the Pit Lane max at 30 km / h
- Before entering the track, check wheel tightness, wear and tire pressure.
- Perform thorough maintenance on your vehicle before and after each Trackday.
- Check the braking system, disc wear, pad wear and brake fluid.
- Carry out a warm-up round at the start of the shift and a cool-down round at the end of the shift.
- Look at the rear view mirrors and don't get in the way of the faster cars.
- If a car reaches you, use the direction indicator and facilitate overtaking.
- Respect a safe distance, do not put slower cars in difficulty.
- Do not overtake if you are not sure that the driver in front has seen you.
- Respect the flags displayed by the stewards (see below).
- We advise not to drive on the track for more than 15/20 consecutive minutes.
- If the brake pedal travel is too long, return to the paddocks.
- Use the 4 ARROWS only in case of danger, car breakdown or red flag.
- Drivers who cause 2 red flags will be denied access to the track for the rest of the Trackday.

## SAFETY EQUIPMENT (2)

- Road cars: jet helmet or full-face helmet fastened on.
- Racing cars: jet helmet or full-face helmet fastened, overalls, shoes and driver gloves.
- Road / racing cars: with 4/6 point belts, the Hans F.H.R. collar is highly recommended.
- Fit front or rear towing eye.
